Circulating thoroughly in Abbotsford, Matsqui, Clayburn, Huntingdon, Kilgord, Straiton, Gifford, Ridgedale, Upper Sumas, Mt. Lehman, Sumas Prairie and All Points in the Surrounding District.

Sixth Year. No. 12.

ABBOTSFORD, B.C., Wednesday, March 21, 1928

By Subscription Only, \$1.50 per Year

## East Side Of Town Preparing For Spring Building Program

Carpenters have started work upon the Hudson hardware store on Essendene avenue east. Advent of a main highway traversing the east side of the track is most encouraging to those engaged in business there, and structural improvements are being planned. A Haddrell is also said to be prepared to start erection of his new buildings.

## New Organization Of Sumas Land Owners To Press For Adjustment

Sumas landowners holding more than 80 acres of reclamation district property are organizing in a new association for the purpose of pressing their claims for adjustment. A meeting is to be shortly called.

## Would Pledge Politicians To Support Of Temperance Cause

Some 40 ladies attended the lecture given by Mrs. Gordon Wright, president of the Dominion W. C. T. U., and nationally-known temperance speaker, given in Abbotsford last week. Mrs. Wright particularly urged women to pledge their parliamentary candidates to support of prohibition measures in the forthcoming political campaigns. Mrs. Wright leaves British Columbia for Germany shortly in furtherance of her work.

Mr. and Mrs. Dan Emery are moving from Vancouver to Port Moody, where Mr. Emery has taken over a business. Farmers are busy with teams and tractors spring plowing.

C. Manuel, of Bradner, one of the most successful poultrymen in the district, is enlarging his plant, installing a 6,000-egg incubator, and erecting a large incubator house.

For ten years they lived happily and the future was rosy.

Then they learned to play bridge. She has resumed her maiden name.

## AUCTION SALE

Under instructions from Gustave Johnson, Mount Lehman, B. C., I will sell by Public Auction on

**TUESDAY, MARCH 27, 1928**

Commencing at 130 o'clock sharp, at the place now occupied by him and known as the Campbell farm, situated between Mount Lthman on the B. C. Electric Railway and Mount Lehman on the C. N. R. and Fraser river, his entire

## Herd of Dairy Cows and Heifers

23 Head, 17 of which are choice Jersey grades from two to six years old and two to seven years old, really full blooded but not registered (except the herd sire and a very nice two-year-old heifer, fresh); two bred in December, two fresh and not bred, three bred in January, two bred in February, two in March. Two choice Guernsey grades four and six years old, one fresh in December and one just fresh; one Holstein grade fresh in December and bred in January; one brindle fresh in January and bred March 4th; five beautiful heifer calves, two and three months old.

Choice Bred Jersey Bull two years old, from herd of E. H. Barton. His grand dam produced 8276 lbs. milk, 441 lbs. fat.

The registered two-year-old heifer is a very type animal, a granddaughter of the Rogue, the U. B. C. herd sire. This herd has never had a reactor and has always been free from red water and sold subject to the usual guarantee for red water.

Horses—One span of very useful geldings eight and nine years old, weight 3,000 lbs.; one driving pony. One New Horse Rake and Mowing Machine.

Mr. Johnson's lease has expired, hence this sale. Shipping up or down the river by boat.

Terms Cash. WM. ATKINSON, Auctioneer, Chilliwack, B.C., Tel. 234L2. Box 222

## CLAYBURN

Mrs. A. Kay has returned from Vancouver, where she has been the past two weeks, the guest of her daughter and son-in-law, Mr. and Mrs. Haigh.

Mr. P. Power, who has filled Mr. J. C. Bailey's position in the Clayburn Co. office, visited Hope, where he formerly resided, last Sunday.

Mr. and Mrs. J. C. Ball were heard from in New York last week.

Over \$16 was realized at a St. Patrick's tea given by the Ladies Aid on Friday afternoon.

Mr. Bateman has purchased a house in Vancouver and intends moving there at the end of the month.

Mrs. Fred Thompson and small daughter have returned from the M.S. A. Hospital.

Stewart Thompson has returned home from the hospital.

## Trinity Church Social Nets Over \$30.

One of the largest crowds in recent years attended the annual St. Patrick's social given in the home on Mrs. H. J. Fraser last Friday, the event netting over \$30 for the church, after expenses were paid.

Comic songs and recitations were rendered by Mr. Lilly of Chilliwack, Mrs. Lilly accompanying on the piano. Songs were also sung by Mr. W. J. Sayce, Mrs. Trussell and Mr. Farrow, and Mrs. Parton and Mr. Bryenton gave recitations. Rev. Mr. Baker gave a stirring talk on "St. Patrick," and Rev. Mr. Paton occupied the chair.

A parcel sale in connection realized nine dollars.

Some of the settlers on Sumas reclaimed land have found good flows of pure water at a depth of 18 to 20 feet. Need of a water supply troubled the hop company, which, after boring in several places without finding a satisfactory flow, was compelled to lay a pipe line from Vedder mountain.

Messrs. Ward and other operators of the Director Gold Mining Co. have returned home for a time, the Emancipation mine having closed down because of the big slide at Jessica.

At a meeting of the district Conservative association, held in Chilliwack last week, F. B. Stacey was elected president; Eric Weir vice-president; S. Carson secretary, and J. Thompson treasurer. The presidents of the local associations will comprise the executive.

An organization meeting of the Abbotsford Girl Guides is called for Friday next at 8 p.m. in the Parish Hall, when Mrs. Claude Wilson of Chilliwack will assist. Parents are particularly invited to attend.

Members of Matsqui Agricultural Association are to meet in Gifford hall March 29 to revise the prize list and arrange final details of amalgamation with the Farmers' Institute.

A happy social was held at the home of Mr. and Mrs. G. A. Paterson, Matsqui last Friday, a large number of guests being present. Music and dancing made for an enjoyable evening for all present.

## TENDERS

TENDERS, marked "Tender for the Purchase of Furnace" will be received by the undersigned up till noon March 26th, 1928, for the purchase of one Economy No. 23 furnace and piping, installed in the Ridgedale School; suitable for home or hall. Lowest or any tender not necessarily accepted.

J. OWEN, Secretary, Mt. Lehman, B.C.

## TENDERS

TENDERS are called for the purchase of a pumping plant, now installed in the Abbotsford school. The equipment includes a pressure tank, pump and 1-4 h.p. electric motor. Make bid to—

E. WEBSTER, Secretary, Abbotsford S. B.

## ABBOTSFORD

Born.—To Mr. and Mrs. Edward Murphy, Ware road, Abbotsford, in the M.S.A. hospital on March 17, a son.

M. C. Walker was elected to the office of Loyal Knight of Aldergrove B. P.O.E. Lodge at Tuesday's meeting, succeeding G. L. Hamre, resigned.

Mr. J. Gilmore, the Mill, has received acknowledgement by letter from Station 2FC, Sidney, Australia, of advice of their broadcast being heard by him at Abbotsford this winter.

Mr. and Mrs. J. Dandy and family are moving to Anyox to reside.

While chopping wood at the Rudge farm, Delair road, William Dawson, a young farm hand, severely cut his foot with the axe. He is being attended in the M.S.A. hospital.

Mr. and Mrs. Hall of Calgary are visiting with Mr. and Mrs. Beck, Abbotsford, en route home from California, where they spent the winter. Mr. Hall is an old Eastern friend of Mr. Dan Emery.

Rev. Chas. B. Archer of Everett, Wash. will preach at the Nazarene Church on Sunday morning at 11 a.m. and address the Y. P. S. at 7 p.m. Rev. Mr. Archer especially addresses himself to the young people.

Preparation of the site for the bungalows to be erected for the Weir brothers on McCallum road is completed, and the carpenters are starting the foundations. Both houses will be 32 feet by 47 feet, modern plumbing, with private running water systems. Nels Olund has the contracts.

## Revelstoke, Queen City of the Ski-Jumpers

ISOBEL COURSIER, CHAMPION  
WOMAN SKI JUMPER, REVELSTOKE

NELS NELSON IN FLIGHT

NELS NELSON, WORLD'S  
CHAMPION - 240 FT.

The town of Revelstoke, nestled among the Selkirk Mountains in the broad valley of the Columbia river, in British Columbia, is noted for two things: its National Park, situated on top of Mount Revelstoke, and its world famous ski-jump where world records have been made and up to the present date not surpassed.

The Revelstoke Winter Carnival extends from February 6-10 inclusive. During this celebration the fourteenth annual ski-jumping tournament takes place on February 7-8. The famous hill, where the jumps are made, has a total length of 1,780 feet, with a runway of 500 feet. The distance from the take off to the farthest point at which a safe landing is assured, is 280 feet, or 40 feet beyond the present world record.

Nels Nelson, a brakeman on the Canadian Pacific Railway, established his world record jump of 240 feet in 1925. The woman's record jump of 84 feet was also made on the Revelstoke ski hill in 1922, by Isobel Coursier, a record which still stands.

Little children in this mountain town who can do little more than walk begin to ski as soon as there is sufficient snow and they are brought up to think no more of skiing than the average child thinks of walking. The children have their own hill and little jumps from which they graduate one by one.

Revelstoke has an unusually large skating rink for the size of the town and there are four curling rinks. The dates for the Banff Winter Carnival are from February 4-11, making it possible for much participation in the Dominion of Canada.

take part in both events.

Canadians are great lovers of the out-of-doors and winter sports are an important factor in the lives of young people in this land of the maple leaf. Quebec and Montreal are the two eastern centers for sports, Winnipeg in the middle west and Banff and Revelstoke still farther west. Western Canada has an abundance of sunshine and the weather is all anyone could desire for it does not freeze and thaw alternately, postponing special competitions or trips, but remains a fairly even temperature. Canadians and Americans will soon realize the futility of traveling long distances and spending large sums of money to enjoy winter sports in Norway, Sweden or Switzerland when there are so many delightful winter resorts in the Dominion of Canada.

## Four New Liners for Canadian Pacific

1. Painting of new "Duchess of Atholl" by Norman Wilkinson.

2. Her Grace The Duchess of Atholl.

3. Vessel just after being launched on the Clyde.

4. Cabin lounge of the palatial "Duchess of Atholl."

Featuring the 1928 St. Lawrence sailing schedule of the Canadian Pacific Steamships is the incorporation of two of the four new 20,000 ton "Duchess" class liners now under construction for the Company in the Old Country. The development of the St. Lawrence route to England and the Continent has prompted the Canadian Pacific to augment their present trans-Atlantic passenger fleet to this extent.

The first of these four huge liners, the "Duchess of Atholl" was launched recently on the Clyde, Scotland, and christened by Her Grace the Duchess of Atholl, M.P. The ceremony was attended by a large gathering of Canadian Pacific and ship-building officials.

Her Grace in receiving a silver model of a steering wheel and bookcase as a souvenir of the occasion stated that she knew something of the joy with which the huge order from the Canadian Pacific had been

received on the Clyde. The Canadian Pacific she said had entered the Atlantic service only in 1923 and had already spent \$100,000,000 in British shipbuilding yards. No person, she added, could visit Canada and not be impressed with the tremendous activities of the Canadian Pacific and what that Company has meant in building up the Dominion.

With the launching of this vessel, ships registering a total of 72,000 tons have been launched for the Canadian Pacific during the months of October and November. This is regarded as a record for a private company. The four new liners will be each of 20,000 tons gross register. In addition to this passenger liner the total tonnage for the two months is made up by five express cargo steamers of the "Beaver" class, and the "Princess Elaine" new 2,000-ton coastal steamer for the Pacific Coast service of the Company.

The vessels of the "Duchess" class, which will include the Duchesses of Atholl, Bedford, Richmond and Beaufort, will represent four of the finest passenger ships afloat. They will be the largest to navigate the St. Lawrence as far as Montreal on regular runs, the general measurements being: length 599 feet; breadth, 75 feet with a load draft of 27 feet. The "Duchess of Atholl", as well as her sister ships will be luxuriously appointed throughout. Oak, walnut, mahogany, white and red birch teak, sycamore and Macassar ebony are some of the fine woods being used in the interior finishings. The ships will be cabin class liners and will have accommodation for about 1600 passengers each.

The "Duchess of Bedford", sister ship of the "Duchess of Atholl", is scheduled to be launched in January and the remaining two in the spring of 1929. The new vessels will have a speed of 17½ to 19½ knots at sea.

## WORLD HAPPENINGS BRIEFLY TOLD

The visit of Their Excellencies Viscount and Lady Willingdon to the Pacific coast will take place late in April.

Repairs destined to prop up the famous Leaning Tower of Pisa will be undertaken shortly under the supervision of the Ministry of Education and Fine Arts.

Commander C. T. Beard, R.C.N., will command the Champlain, and Lieut.-Commander R. I. Agnew, R.C.N., the Vancouver, the two new Canadian cruisers.

The population of British Columbia in 1926 was estimated at 568,000, according to the annual report of vital statistics for that year, tabled in the Legislature.

Hon. Gerald William Lascelles, brother of the Earl of Harewood and uncle of Viscount Lascelles, husband of Princess Mary, died recently in his 79th year.

Richard Kearton, noted naturalist whose writings and photographic close-ups of bird and animal life are widely known, died at his home in Surrey, England, aged 65.

Inauguration of a Federal subsidy to railways for carrying Canadian coal from British Columbia to Ontario and Quebec is sought by Charles Woodward, Liberal, Vancouver, in a resolution moved in the legislature.

The Moscow municipal council and other authorities are considering the launching of a "bicycle loan." The proceeds would provide large masses of Soviet citizens with reasonably priced home made bicycles.

Secretary of War Davis has announced he will ask Col. Charles A. Lindbergh to refrain from all stunt flying as his life is too valuable to aviation and the country. He will not ask Lindbergh to give up flying altogether.

Japanese to the number of 475 were admitted to Canada during the fiscal year 1926-27. Of this number 115 were adult males, 250 adult females, and 110 children under 18. This information was given in answer to a question in the House of Commons.

### Banff's Famous Hot Springs

The hot springs near Banff in Rocky Mountains National Park, Alberta, are among the most important of their kind to be found on the American continent. The total flow of the five chief springs is about 40,000 gallons per hour or approximately 1,000,000 gallons per day.

Lois—"Meet me at the station at 5 o'clock."

Bill—"Fine. What time will you be there?"

## Protecting B.C. Fruit Crop

Counter-Parasites Are Being Imported Into Orchard Regions

Bug will fight bug this season to protect the Okanagan fruit crop from destruction. Counter-parasites are being imported into the orchard regions in a campaign to decimate the codling moth and earwig.

The counter-parasites, according to E. R. Buckle, provincial entomologist at Vernon, will be obtained from Wenatchee, Wash., the United States government having offered to co-operate fully with the British Columbia authorities. Parasites inimical to the codling moth and earwig have done effective work in the past, although they have to be handled with a great deal more care because of the danger of introducing secondary pests with them.

Unless the codling moth is suppressed, growers fear that it may bring about destruction as extensive as in the state of Washington, where losses due to the activity of this pest were \$5,000,000 in 1926. Eight hundred carloads of apples were classified as culls in the Yakima district for same reason.

## Pleased With Visit

Kellogg Says Ottawa Visit Was Most Enjoyable He Ever Spent

Secretary of State Frank B. Kellogg, on his return to Washington, from his trip to Canada, said he never enjoyed a visit more in his life. Speaking of his reception at Ottawa, the secretary said that while Canadian hospitality was proverbial the manner in which he was received by the governor-general, Viscount Willingdon; the prime minister, Rt. Hon. W. L. Mackenzie King, and the officials and members of parliament, had been beyond his anticipation. The secretary was particularly interested in the Archives building at Ottawa, which he thought was one of the most interesting exhibits in the world.

**Fitted Hipline**

The charming frock shown here has a bloused bodice with a deep V-shaped front finished with a collar that terminates in a tie with a bow and loose hanging ends. The two-piece skirt is tucked at the top to achieve a snug effect below the blousing, and the long sleeves are gathered to wristbands. No. 1706 is in sizes 16 years, 36, 38, 40, 42 and 44 inches bust. Size 36 requires 3 1/2 yards 36-inch or 2 1/2 yards 27-inch contrasting. Price 25 cents the pattern.

The secret of distinctive dress lies in good taste rather than a lavish expenditure of money. Every woman should want to make her own clothes, and the home dressmaker will find the designs illustrated in our new Fashion Book to be practical and simple, yet maintaining the spirit of the mode of the moment. Price of the book 10 cents the copy.

## FACES ACROSS THE SEA

Image Of Woman Transmitted By Television For First Time

New worlds were opened up when faces were flashed across the sea by television in a way which was never foreseen even by Jules Verne in all his fanciful imagination. For the very first time the image of a woman was sent across despite the fact she left her position in front of the transmitter a few seconds to glance in a wall mirror to make certain her hair had not become mussed in the excitement. Dummies and men's faces had been flashed across in previous tests but never a woman. John L. Baird, inventor of the television explained he had difficulty in finding a woman willing to attempt to sit still for twenty minutes or half an hour. The transmission was accomplished from Baird's Television Laboratories in London, direct into the receiving station at Hartsdale, New York, which had been rigged up for the occasion.

Baird himself was the first sitter before the transmitter. Afterward, W. C. Cox, of the London Press Association sat for half an hour. Reports came back from the United States that Fox was showing up well.

Then Mrs. Howe, wife of James Howe, of the London Bureau of the Associated Press, took her seat in front of the seventeen glaring incandescent lamps, of 300 candlepower each.

Baird was as excited as a boy when he heard detailed reports of the reception in the United States of the image of Mrs. Howe.

"Indeed I was delighted," Baird said. "It was a splendid demonstration as far as the subjects on this side were concerned. These tests are merely try outs of the unlimited television possibilities of the near future."

"It was the greatest thrill of my life when Mr. Baird told me my image had been seen on the other side of the Atlantic," Mrs. Howe said. "The glare and heat of the electric lights bothered me only a trifle—I was too thrilled at the novelty of it all to think of the temporary discomfort."

## MANY MOTHERS RECOMMEND THEM

Baby's Own Tablets Are Fine For Nervous, Sleepless Children

From Canada the fame of Baby's Own Tablets is spreading over the world. Mothers recommend them to other mothers and wherever they are tried nothing but words of praise are heard for these pleasant tasting little tablets that promptly relieve the minor ailments of young children.

"Baby's Own Tablets are one of the best remedies for children's ailments I have ever used," says Mrs. Arthur T. Allen, of Auburn, Me. "My little girl was nervous and could not sleep. I tried the Tablets and she was relieved at once. She was also troubled with constipation and nothing seemed to help her. I had used the Tablets but a short time before her bowels were regular. All mothers should keep Baby's Own Tablets in the house for they are a valuable remedy."

Baby's Own Tablets are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

## Federal Grants For Fairs

Policy Of Government Should Be Better Defined

Western members of parliament are in receipt of telegrams almost daily from constituents in regard to the federal grants to class B fairs, and there is every indication that the policy of the government in this regard will be a subject of keen controversy in the present session.

The difficulty arises out of the manner in which the grants are given. Some fairs receive assistance and others do not, and the government hitherto has declined to base the assistance upon any principle. Western members declare that the grants should be given to all fairs which can qualify as class B, or discontinued entirely.

Many a man who has made a failure at everything else imagines that he is a success as a husband.

The man who is looking for trouble doesn't have to advertise for it.

## Noted Indian Chief Dead

Narrowly Escaped Being Buried Alive 25 Years Ago

Moses Brown, noted Indian chief of the Chehalis Reserve, B.C., is dead and buried and this time, his fellow-tribesmen say, the old man is not likely to rise again.

The chief was almost buried alive 35 years ago. For two days the Indian villagers thought he was dead as a result of an accident. They placed the body in a coffin, performed the usual tribal funeral rites, and set out for the burial ground. When the coffin was being lowered into the grave it accidentally jarred against the bottom and the sudden jolt brought the occupant back to consciousness.

Realizing that he was imprisoned, Moses began to beat furiously on the coffin, which was immediately broken open by the astonished Indians. The man supposedly dead walked home with the mourners, apparently none the worse for his experience.

The dead chief served the provincial and federal governments as a guide for years and as a boy accompanied many prospecting parties into the Cariboo during the gold rush. He was the only full-blooded Indian ever employed as a bartender in British Columbia. That was in New Westminster in the early days of the province.

Besides being known as a great medicine man among the Indians, Chief Moses was well educated. He could speak, read and write fluently, and also had a good knowledge of French, Spanish and Chinese.

## Truth About Cancer

"Neither X-rays nor radium has ever cured, or will ever prove of service, as a cure of cancer. For of both of these appliances I have had ample experience."

"It is no use experimenting upon a disease unless we first of all know something of its natural history; and yet the general consensus of opinion amongst surgeons, which they have no hesitation in circulating, is that the cause of cancer is not known. Yet they continue to treat it by methods that apply only to a local outcrop, which, much to my regret, I was guilty of doing for a number of years before my eyes were opened to the folly of it."

"The fact remains that operative treatment for cancer has been practised from time immemorial and from my knowledge of the disease I affirm that the knife has never cured cancer in a single instance; but, on the contrary, has only succeeded in aggravating the disease and adding to the sufferings of the poor patient; and also shortening his or her life, which latter, perhaps, might be looked upon, as a godsend in the circumstances."

"Now cancer is a blood disease—and there is no gainsaying this—the local manifestation being merely an outcrop of the malady, the cause being prolonged toxic condition of the blood."

Love of humanity and truth impelled the internationally celebrated British cancer surgeon, Dr. Robert Bell, M.D., F.R.C.P.S., &c., to abandon his lucrative surgical practice and, with convincing proofs of his above quoted statements this eminent authority successfully opposed and refuted the modern orthodox methods of treating the deadliest known disease.

Before passing at an advanced age in 1926, wishing to ameliorate the condition of cancer sufferers in Canada and the United States, Dr. Robert Bell kindly authorized the writer to use his printed works and personal letters in humanity's service and a book of valuable information concerning prevention and treatment of cancer without surgical operation, radium or X-ray tortures or expense can be obtained, without charge, on application to Charles Walter, 51 Brunswick Avenue, Toronto, 4, Ontario, Canada.

A Parisian poet, Louis Lohgare, entered a cage of wild lions and read his poems for half an hour. The lions seemed unharmed.

The man who has millions today doesn't control a single minute of tomorrow.

If you're not up and doing, you're down and being done.

## Source Is Still Unknown

"Cosmic Rays" Have Baffled Scientists For Many Years

Rays from the Milky Way with more than 30 times the penetrating power of X-rays, and which have baffled scientists for more than 20 years since they were first suspected, have now been described by Professor Miliken and Dr. Cameron, of Saskatchewan.

The inference made is that they searched the universe in an attempt to determine the source of these rays which are called "cosmic rays." They describe their latest attempts in California and on the heights of the Andes mountains in South America. They have tested the light from the stars without result. They have found no effect from the sun, and they have gathered nothing from their trials in interstellar space.

The inference made is that the rays come to the earth from the edge of the universe, far beyond the ring formed by the Milky Way, and had their origin 1,000,000,000 light years ago. The rays are believed to be electrical in origin, but to produce rays with the same penetrative power would require an electro-motive force of 41,000,000 volts.

While a fairly thick coating of lead is impenetrable to X-rays, the cosmic rays can be detected behind a lead screen up to 16.7 feet thick, and to a depth of 190 feet of water.

## Alberta Liquor Profits

Profits Of Over Two Million Dollars On Government Sale Of Liquor

Net profits of \$2,038,622 on government sale of liquor were made in Alberta last year, according to the report of the Liquor Control Board which was laid on the table of the House at Edmonton.

The report, covering the full calendar year of 1927, shows an increase of \$235,070 over the preceding year's profits. Gross sales amounted to \$4,858,849.

Improvement is noted in respect to violations of the liquor law. All convictions totalled 2,450, a decline of 359. The convictions for drunkenness were 1,065, or 117 less than the year before.

Law enforcement was strictly carried out and the officers on that work travelled 130,000 miles.

The cost of law enforcement of the liquor laws was \$100,626. Excellent co-operation from the municipal and Dominion police was reported.

That Alberta's liquor business has made a satisfactory contribution to the Dominion treasury is indicated by the report which puts the amount paid to the Federal government by the board and brewers of the province at \$2,454,000. This amount was paid in customs and excise duties, sales tax, etc.

## CREAM OF TOMATO SOUP

2 1/2 cups canned or fresh cooked tomatoes.  
1/2 small onion, sliced.  
1 stalk celery, minced.  
1 tablespoon minced parsley.  
1/2 bay leaf.  
2 whole cloves.  
1 teaspoon salt.  
1/2 teaspoon pepper.  
1 teaspoon sugar.  
1/4 teaspoon soda.  
2 tablespoons butter.  
2 tablespoons flour.  
1 1/4 cups Borden's St. Charles Milk.  
1 1/2 cups water.

Add seasoning to tomatoes and simmer fifteen minutes, strain. Melt butter in saucepan, stir in flour. Dilute milk with water, pour slowly into butter and flour, stirring until it thickens. Continue to cook five minutes. Just before serving, add soda to tomatoes, gradually add tomatoes to white sauce, stirring constantly, serve immediately.

All or any of the vegetable seasonings may be omitted, but their addition gives a smooth, well-blended flavor to the soup.

## How She Saved

A poor blind woman in Ireland put ten shillings into a plate at a missionary meeting. "You cannot afford so much," said one. "Yes, I can," she answered. On being pressed to explain, she said, "I am blind, and I asked my neighbor how much money he spent for oil in his lamps in a year. He replied 'Ten Shillings.' So I found that I have saved so much because I am blind, and do not need a lamp and I give it to shed light to heathen lands."

## Back Seat Record

He had just bought a car. His wife went with him on a few expeditions, and did not hesitate to criticize her husband's driving.

"Hello, old man!" said a neighbor one evening. "I see you've got a car. What do you get out of her?"

"About 40,000 words to the gallon," answered the husband.

Some folks persist that a healthy baby should be a delicate pink. Too many of them are robust yellows.

Woodsmen—Keep Minard's handy.

# CANCER

## Great Success of Cantassium Treatment

A well-known London surgeon and recognized authority on Cancer has created world-wide interest in the discovery that Cancer is due to a deficiency of potassium "salts" in the body, which causes the cells to break down and become malignant. In order that every one may learn

## The Real Cause of Cancer

a remarkable book has been specially written. This book will be sent free to patients or any one who is interested in the most successful method of fighting "THE CANCER SORE."

The following is a list of the chapters:  
1. The Limitations of Surgery; 2. Some Doctors Oppose Operation; 3. What Cancer Is; 4. Why the BODY CELLS BREAK DOWN; 5. Influences Cooking Methods; 6. Common Errors in Diet; 7. Vital Elements of Food; 8. Medical Endorsements of Our Claim; 9. The Chief Minerals of the Body; 10. The Thyroid Gland; 11. Age When Life Begins to Accumulate; 12. Potassium Causes Lime Excretion; 13. Great Value of Potassium; 14. Parts of the Body Liable to Cancer; 15. Parts Which Are Seldom Affected; 16. How a Doctor Can Help; 17. How to Avoid Cancer; 18. Death-rate From Cancer; 19. Arterial Sclerosis and Old Age; 20. Rheumatism, Gout and Kindred Complaints.

With this book are a number of interesting case-reports proving the great value of "Cantassium Treatment" in various cases. The treatment is simple and inexpensive, and can be easily taken in one's own home. Apply for free book to Charles Walter, 51 Brunswick Avenue, Toronto, Ontario, Canada.

## Planning First Air Cruise

Keen Interest Taken In Flight Being Arranged by Imperial Airways

The first aerial cruise in the history of the world will leave Croydon aerodrome shortly, carrying 12 passengers on a de luxe 35-day tour of France, Spain, Northern Africa, Sicily, and Italy.

Keen interest is being manifest in the epochal flight which is being arranged by the Imperial Airways and a number of Americans have requested permission to join the cruise.

Luxurious service on board the plane will be a feature of the trip, the crew, including pilot, pilot engineer, and steward. Luncheons as well as afternoon tea will be served on board the plane, and passengers will have a first class buffet at their disposal.

This first air cruise in the world will include a distance of 5,500 miles by air, in addition to hundreds of miles by car, all of which has been arranged by the directors of the tour.

Doctor—About nine patients out of ten don't live through this operation. Is there anything I can do for you before we begin?

Dusky Patient—Yassah. Kindly hand me mah hat.

## The BABY

Why do so many, many babies today escape all the little fretful spells and infantile ailments that used to worry them up half the night? If you don't know the answer, you haven't discovered pure, harmless Castoria. It is sweet to the taste, and sweet in the little stomach. And its gentle influence seems felt all through the tiny system. Not even a distasteful dose of castor oil does so much good.

Fletcher's Castoria is purely vegetable, so you may give it freely, at first sign of colic, or constipation, or diarrhea. Or those many times when you just don't know what is the matter. For real sickness, call the doctor, always. At other times, a few drops of Fletcher's Castoria.

The doctor often tells you to do just that; and always says Fletcher's. Other preparations may be just as pure, just as free from dangerous drugs, but why experiment? Besides, the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold!

## Children Cry for

# Don't dose a Child's Cold

CONTINUAL dosing upsets children's delicate stomachs. Vicks is applied externally and therefore cannot disturb the digestion. It acts in two ways: (1) The body heat releases the ingredients in the form of vapors which are inhaled. (2) At the same time Vicks "draws out" the soreness like a poultice.

## PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

### CHAPTER XIX.—Continued.

His house of branches was replaced by a little log shanty, with a home-made fireplace built of stones from the river, and into it he moved before winter. In the spring he returned to civilization with his season's catch of furs. After that his victory was assured, and if he had been more sociable and friendly he would have received the admiration of the settlement at Bannerman. As it was he did his trading almost silently, volunteering no explanation of his strange ways; and no man can gain the confidence of his fellow men unless he is willing to explain himself.

The year before the war, the Englishman had built a shingled bungalow, with glassed-in verandah, and hardwood floors. He had built-in cupboards and furnished it in such a manner that many a man living in the settlement was subject to drastic questioning by the wife of his bosom, who drew pointed comparisons between the house she was forced to live in and this one. Why was it that a crazy Englishman who lived alone but for his dogs, could afford such luxuries as these, while whole families were still living in congested quarters? Matters grew still more unpleasant when it was rumored that he was going to pipe the water from a lake in the mountains to his house.

The only explanation the harassed husbands could think of, and it did not entirely satisfy, was that the man must be receiving money from home. No man could do all this on his fur catches.

It was Bill Larsen, the Swede, who conceived the idea of visiting this new house, and to this end organized a fishing party one Sunday morning in the spring of the year. English River abounded in mountain trout, and it was easy to get a party together to go out. They could ask permission to boil a kettle and in that way get in to see the house.

The party came back late that night registering complete success. He had not only asked them to come in, but had cooked a meal for them—

## OPERATION LEFT HER VERY WEAK

Letter Tells of Wonderful Relief After Taking Lydia E. Pinkham's Vegetable Compound

Coniston, Ontario.—"After a severe operation and a three weeks' stay in a hospital I returned home so weak that I was unable to move a chair. For four months I was almost frantic with pains and suffering until I thought sure there could not be any help for me. I had very severe pains in my left side and suffered agony every month. One day when I was not able to get up my mother begged me to try your medicine. My husband got me a bottle of Vegetable Compound at once and I took it. I started a second bottle, and to my surprise and joy the pains in my side left me completely and I am able to do all my work without help. I am a farmer's wife, so you see I can't be idle long. In all, I have taken six bottles of Lydia E. Pinkham's Vegetable Compound, five boxes of the Compound Tablets, two bottles of Lydia E. Pinkham's Blood Medicine, and have also used the Sanative Wash."—Mrs. L. LAJEUNESSE, Box 103, Coniston, Ontario.

W. N. U. 1721

### The Fall Of Trotsky

Faces the Cruel Punishment Of the Old Autocratic Government

There are many ironies in the exile of Trotsky to Siberia.

There is the irony that he who next only to Lenin, was the main creator of the Soviet regime, is now crushed and rejected by it.

There is the irony that he follows the way of the helpless Czar whom he sent to his death at Ekaterinburg.

There is the irony that, in facing Siberian exile, he faces the cruel punishment of the old autocratic government which every Russian liberal for a century has vowed to end.

And there is the final irony that the world at large will take from the exile of Trotsky all sorts of valuable lessons of the exact kind which neither he nor the Soviet tyrants will want it to take. — New York Post.

"Good Lord, man, you're crazy! These were dandy dogs? What in thunder did you want to shoot them for—I thought you were a real dog man."

"No one will ever abuse my dogs. I wanted to be sure, that's why. I gave the Ransom's a horse, and they promised to care for Cleo as long as she lives. What will you give me for the horses? Be quick now!" He had no time to argue—he was going on the train that day.

"One hundred dollars for the whole thing," said one of the men.

"Very well," said the Englishman. "I'll take it. Be good to them."

He went to the boarding house for dinner, where he was the centre of curious eyes, for the story of his wild intention was known. When he had eaten a hasty meal he stood up suddenly and broke into speech.

"Boys, you are wrong," he began, in going on mining coal and thinking you do not need to hear the call your country has sent out. The British Empire is threatened, her enemies are at the gates. Belgium, a little country, has been violated. While you sit here, villages are burning, women are screaming—and the Germans are marching triumphantly on. Have you no pride, no manhood? . . . I know the Germans . . . they have been getting ready for years. Lord Roberts told the Empire to get ready—it was coming—but they went on like you—business as usual!"

He paused here, overcome with emotion. One or two of the men laughed, the others regarded him stolidly. Crazy Englishman! Crazier than ever!

"Well, say, looka here," began Bill Larsen, "what are you gettin' so het up over, I'd like to know." Bill, although the proprietor of the "Grande Pacific," a hostel licensed to sell mail and spirituous liquor, and presumably a place of refreshment for man and beast, made no pretence of supplying meals even for himself, but took the monthly rate from Mrs. McMann. "What's bitin' you? Go yourself if you want to—whose holdin' you back?—but what's the call for abusin' us because we don't want to stand up and stop bullets. My old granddad fought in the American war, and he got his fill of it, I'll say!—lost an eye and a leg, and got four dollars a month of a pension from his grateful country! It don't look like a safe proposition. How do you know who's right? Your British Empire wasn't so darned right when she had the little run-in with the United States. How do you know she's right this time?"

(To Be Continued.)

### Islands Make Final Payment

Final contributions of Jersey and Guernsey to the cost of the great war have been received in London. Jersey's contribution amounted to £300,000, and a cheque for that amount was received at the Treasury. Guernsey's cheque was for £200,000 and was received at the Home Office. The two sister isles made simultaneous final payment by previous arrangement between themselves.

A poet has discovered perpetual motion. The magazine editors send him back as much as he sends them.

The motorist has the right-of-way and the pedestrian has what's left.

### LESSON No. 16

Question: Why do growing children, particularly girls, need emulsified cod-liver oil?

Answer: Growing children, and particularly girls, need vitamin-rich nourishment to help them through critical stages of extreme tax on their strength.

Pleasantly flavored, easy to take, children like

**SCOTT'S EMULSION**

### Goodwill Tours To Europe

Members Of Parties Will Take Own Cars and Motor Through Europe

A friendlier feeling between Canadian, American and European motorists which, in turn, will be transmitted to a much wider circle of people on the two continents will, it is hoped, be engendered as a result of two personally conducted "goodwill" tours to Europe this summer organized by the White Star Line under the official auspices of the Montreal Motorists' League, it is stated in an official announcement by the White Star Line.

A novel feature of the tours will be that those going to Europe with these parties will take their own cars and motor through Europe and Great Britain.

Wherever they go receptions will be arranged in the principal cities and it is anticipated that the Touring Club of France, and the Automobile Association of Great Britain, with which the Montreal Motorists' League is affiliated, will tender official receptions to the parties and, in this way play their part in promoting goodwill between Europe and the North American continent.

Already there have been inquiries from Winnipeg, Vancouver, Toronto, several cities in the province of Quebec, Ontario and Manitoba, and with the announcement of these tours in the United States it is expected that there will be a regular string of requests from American motorists.

One of the principal ideas underlying these parties is to persuade Canadian and American motorists, who already have much in common, to travel across the ocean together and, by personal contact with motorists in Great Britain and in Europe, build up a firmer feeling of friendship between the people on the two continents.

The first party, with their own cars, will sail from Montreal on the White Star liner "Megantic," on July 26, and return from Liverpool on the White Star liner "Calgaric," on August 31.

The second group will sail from Montreal on the White Star liner "Albion" on September 6, and return from Southampton on the same steamer on October 20.

Both these parties will follow practically the same itinerary, landing at Havre and motoring thence to Rouen, through the Canadian battlefields by way of Neuve Chapelle, Amiens, Doullens, Arras, Vimy Ridge, the Somme, Lille, Tournay, Mons, Cambrai, St. Quentin, Compiègne to Paris where several days will be spent, then by way of Chateau Thierry to Rheims, Verdun, Luxembourg and Treves, Cologne, Aix la Chapelle, Brussels, Antwerp, Amsterdam, The Hague, Rotterdam, and then by steamer to Harwich from where the party will make a circular tour of England and Scotland.

### Vermilion Map Sheet

Marked Changes From Early Days Is Shown By Aerial Survey

A score or more of years ago one travelled from Saskatoon to Battleford and Edmonton and there were no intervening settlements. The go-pher and the badger had their way with the land and viewed with a placidity born of ignorance the straggling parties of surveyors at work on laying out the farms of the next generation.

Today most of these areas are filled with settlers. The stupendous change that the years have brought is clearly pictured in the latest edition of the Vermilion Map Sheet, located seventy-five miles east of Edmonton, now on the press of the Topographical Survey, Department of the Interior, Ottawa. The wilderness that was, has been made to blossom into something distinctly more profitable than the rose. An area of eighty-four miles east and west by forty-eight miles north and south is, except in three wooded townships, settled to the extent of one farmstead to the quarter-section in many cases.

The new map will be of incalculable use to prospective settlers, travellers, business men and others. Shown on it are farmhouses, schools, grain elevators, post-offices, towns and villages, telegraph offices, telephone lines and railroads.

Also clearly indicated in different colors are the main roads, secondary roads and lesser travelled trails along which centers the ubiquitous motor car where formerly the buffalo alone ranged.

Traversing the region from east to west are the trough-like valleys of the North Saskatchewan and the tortuous Vermilion. Many small lakes and lesser waterways, both ornamental and useful, brought to light by the photographs of the Aerial Survey, have been mapped.

The 1885 rebellion is recalled in the location of the site of the Frog Lake massacre.

## Save the Valuable "POKER HANDS"

### Old Violins

Three Genuine Stradivarius Are Found In The Ottawa District

Three genuine Stradivarius violins have been located in the Ottawa District. In most cases they fell into the possession of their recent owners when they were purchased for a song." Mrs. E. Jamieson purchased a violin six years ago from an old gentleman for \$10. The words "Antonio Stradivarius Cremonensis Faciebat Anno 1716" are inscribed on the inside of the instrument, which she purchased for her son to practice on.

W. L. Weaver, of Mountain, Ont., purchased the violin, which he claims to be a Stradivarius, 18 years ago in New Ontario, from a Russian who was in straitened circumstances. It bears the same inscription as the violin owned by Mrs. Jamieson but is dated 1736.

The third violin is in the possession of John Pumfrey, of Camden township. His violin has been pronounced genuine by experts. He values the instrument at \$15,000 and has refused \$10,000 for it.

### Cancer Research

Too Much Secrecy Adopted By Those Engaged In This Work

Dr. Charles H. Mayo, famous surgeon, of Rochester, Minn., finds too much secrecy enshrouding research work of cancer cures. "Too much secrecy, that is the main drawback in the search for a cancer cure as it is now being conducted by research scholars throughout this country," said Dr. Mayo. A government program of unified research, such as was outlined in Chicago recently at the American medical association meeting by Surgeon General Hugh S. Cumming, of the United States public health service, was advocated by Dr. Mayo as a means of casting off the "secrecy and mystery" in which research scientists have shrouded their experiments on cancer.

Green fruit may be ripened in a few hours by means of ethylene gas.

## Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

### Little Helps For This Week

"Forgive, if ye have ought against any, that your Father also which is in heaven may forgive you.—Mark xi. 25.

Gently I took that which ungently came, And without scorn forgave; do thou the same, A wrong done to thee think a cat's-eye spark. Thou wouldst not see were not thine own heart dark. —Samuel Taylor Coleridge.

Does any man wound thee? Not only forgive, but work into thy thought intelligence of the kind of pain that thou may'st never inflict it on another spirit.—Margaret Fuller.

Life appears to me too short to be spent in nursing animosity or registering wrong.—Charlotte Bronte.

Children suffering from worms soon show the symptoms, and any mother can detect the presence of these parasites by the writhings and fretting of the child. Until expelled and the system cleared of them, the child cannot regain its health. Miller's Worm Powders are prompt and efficient, not only for the eradication of worms, but also as a toner up for children that are run down in consequence.

### No Ladies Allowed

Bachelor's paradise, as Tavistock Hotel, Covent Garden, London, was known in the last century, has closed its doors, and the contents have been sold by auction. No woman was allowed within the hotel's doors, and it was practically a man's club. The long dining room is said to have been a favorite haunt of Dickens, Thackeray and other notable men.

### Minard's Liniment for asthma.

So far nobody has been able to raise the chinchilla successfully in captivity as these animals are very quarrelsome and usually kill each other or the young.

A Texas chemist has declared the material value of the average human being to be 98 cents.

### POTATO SPECIALIST QUILTS; TOBACCO GROWER STARTS

Thistles, blight, and heavy rains last fall are some of the causes prompting C. W. Buckle to relinquish his 100-acre farm on Sumas Prairie and return to Brighouse. Steve Matthey, a recent arrival from California is now in possession of the place, and is preparing to immediately set out 50 acres of tobacco plants.

More than two hundred tons of potatoes were harvested by Mr. Buckle last year under the most difficult weather conditions. His digging machine was stalled for days at a time while the rains ceaselessly flooded his fields, in the end, compelling him quit, leaving acres of potatoes under water. He found the soil to be particularly suitable for tubers, and his yields per acre were comparatively high. But appearance of the blight, coupled with the masses of thistles which troubled everywhere were too much. So he is leaving. At present two large trucks from Matsqui are engaged hauling his potatoes to the G. N. R. depot here, for shipment to San Francisco, and his mechanical equipment is being moved to the Delta. Mr. Buckle expects to return to Sumas when some of the weeds have been eliminated, and other conditions improved.

Assisting Mr. Matthey in his preparations for tobacco-growing are his brother-in-law, Mr. M. Molney, and family, also from Los Angeles. These newcomers are former Saskatchewan farmers, of Hungarian extraction, and are bringing 25 of their people from the prairies this spring to assist in planting. Mr. Matthey, who is taking over the Buckle land from Mr. F. Fooks on a purchase option, is optimistic of his prospects here, and expects to make good.

**Irish Family Of Eleven Arrive At Clayburn To Occupy S.S.B. Land**  
Last week S. S. B. Supervisor Berner welcomed to Clayburn Mr. and Mrs. J. McMath and family of nine children, who have arrived direct from Londonderry, Ireland. They have taken up residence on the Bullock farm, a 30-acre property adjoining Clayburn village, one of the best allotments in the hands of the Soldier Settlement Board. The McMath children range in age from one year to 14 years.

**Girl Guides Give Demonstration Here**  
Abbottsford's Girl Guide corps attended the parish hall in full force last Saturday afternoon to welcome a delegation of Girl Guides from Chilliwack, who, under direction of Mrs. Claude Wilson, Divisional Commander, gave an exhibition of troupe work. Demonstrations of drill, first aid, semaphore, and camp-fire routine were given by the visiting girls, so delighting the local Guides that they are eager to become properly organized.

**Traps Timber Wolf Near Abbotsford**  
A timber wolf, measuring six feet from nose to tail-tip, was trapped by A. Nicholas of Clayburn, just west of Abbotsford last week. Three red foxes were also trapped by the local man.

The Native Sons dance, given in Jubilee hall last Friday, attracted a full share of patronage among three of four other similar events in the district on the same night. Vanetta's orchestra played pleasingly, the floor was in exceptionally fine condition, and the refreshments abundantly satisfied all.

### Baseball Club To Sponsor Boxing Tournament In Abbotsford

Abbotsford baseball club was reorganized at a meeting of business men and fans held in the Hotel Atangard last week and plans made for an active season. Optimism was voiced that the local boys will be able to make a fine showing this year, now that a convenient, and well-laid diamond is available on the Jubilee grounds. To augment funds a boxing tournament is to be arranged at an early date.

Affiliation with the Fraser Valley League, which includes the teams of Langley, Chilliwack, Mission, Cloverdale and Whiterock, was decided upon. Officers were named as follows: H. L. Atkins, pres.; W. A. Wattie, vice-pres.; R. A. Newcomb, manager, Executive, E. S. Plaxton, E. T. Weir, F. Fossett, C. A. Stewart and J. Vanetta.

One of the government mechanical ditchers is at work on the Yale road near the condensary.

Takes Issue With Mr. Peters

Editor News:

Will you kindly allow me space in your columns in reply to a letter which appeared in your paper last week regarding the Klan parade on the streets in Abbotsford on Saturday evening, March 10. That one, calling himself a Protestant, should express himself in the manner he did, has shown a lack of judgement in doing so; although I believe he has been made the goat of others who lacked the courage to come out and express themselves openly in a proper manner.

We are much indebted to members of Abbotsford L. O. L. No. 1867 for the appearance of Rev. J. M. Hanna in our midst for nearly two weeks. The lectures conducted by him in the Orange Hall were of an educational and interesting nature, and had Mr. Peters taken the trouble to have attended these lectures, he would never have been so ignorant as to ridicule Mr. Hanna after his departure from our midst.

In the course of these lectures, the dangers which confront the Protestant citizens in Canada to-day were exposed by the lecturer in a very able manner. The tactics used by the Roman hierarchy in the days of the Holy Inquisition are still in vogue to the present day, and one has only to watch the doings in other countries under that control at the present time.

Mr. Hanna did not make any statement there to back it up, and regarding statements he made concerning the life of the priests and nuns, it was up to Mr. Peters or anyone else if they could do so, to go up on the platform and prove to Mr. Hanna that his statements were false, which I notice they did not try to do.

The Klan does not interfere with the religious beliefs of any person, as everybody is free to worship according to the dictates of their own conscience. While speaking at Nooksack, before coming to Abbotsford, I have been informed that Mr. Hanna secured 300 applications for membership in the K. K. K., so the people south of the border must be listening to him.

In answer to a question asked him while speaking in the Orange Hall, Mr. Hanna stated that 90% of the Masons in the United States were Klansmen. I have heard that it was rumored around Abbotsford after the parade that the Union Jack did not receive the same recognition as the Stars and Stripes, but that rumor is nothing but pure bunk.

As Mr. Hanna expects to be here again in the near future, I trust that anyone who has felt inclined to ridicule him will have a change of heart in the meantime, and decide to go and hear for themselves what he has to say.

HOWARD TRETHEWEY

### THE ANGLICAN CHURCH

6.30 p.m. Communicant's Class.  
7.30 p.m. Subject: "Religion's Pleasant  
Ways".  
You are cordially invited to attend.

### Speaks From Experience

Editor News:

Had Mr. Peters been raised as a Protestant, in a strong Roman Catholic area, as I was, in the south of Ireland, he would not so readily resent Mr. Hanna's statements. Some of my dearest friends were Catholic girls, and the unhappy culmination of convent life with two of them brought home to me in my youthful years—far more than the frequent incidents I witnessed between priests and their church adherents—the absolute power the Roman Church held in Ireland. Later years strengthened this opinion, correspondence from friends and relatives in the land of my birth telling of the murders and other violence due to the Sinn Fein uprisings—civil war in all its brutality, friend assassinating friend in the name of the "cause." Born and raised among such conditions, the Protestant Irish, nevertheless lived in comparative friendship with Catholic neighbors, recognizing their equal right to religious freedom, but sympathizing with them in their yoke under the dominating priesthood, and the utter poverty, squalor and illiteracy of so many caused largely by their church exactions. With us who have seen this, the Roman Church is no abstract issue. Conditions in South America, Mexico, and even our own Quebec seem to indicate that regressive medieval conditions go hand in hand with papal power.

Political activities in the United States apparently stimulate the Klu Klux Klan "anti-Roman Church" agitation so noticeable in the Pacific Northwest, especially in the towns from Seattle to the Canadian border, and it is presumed that Mr. Hanna was here by invitation of our own Orange organization.

(MRS.) MARY E. H. Abbotsford.

## HOSPITAL WORKERS TO GIVE A GET-TOGETHER SOCIAL

Auditors' technicalities were given  
perturbed consideration at a special  
meeting of the M.S.A. Hospital Directors  
held on Monday evening, when the  
chairman, R. L. McCulloch, read a mass  
of correspondence from T. H. Ingram,  
C.A., relative to the condition of the  
hospital accounts.

Explanation of a variance in the total  
sum paid by Matsqui municipality  
last year towards hospital maintenance  
as listed in the hospital financial statement,  
and the municipal report was requested  
by J. Mutch. It appears that book  
keeping segregation of a number of  
cash items, among which were  
amounts from Abbotsford, Sumas and  
Matsqui municipalities, had not satisfied  
the auditor's requirements, and he  
had apparently given the totals just  
as he found them recorded. This matter  
is to be taken up with Mr. Ingram,  
in an effort to obtain from him a lucid  
statement for distribution.

An auditor's advice in the installation  
of an efficient book keeping system is  
to be sought, and the hospital secretary  
offered to obtain competent assistance  
in his work at his own expense.

On behalf of the W. A. Mrs. J.  
Downie extended an invitation to the  
Board to co-operate with the ladies in  
giving a get-together social in April,  
the guests of which to be all friends,  
workers, and former patients of the  
hospital. This proposal was accepted,  
and Chairman McCulloch offered to  
interview a prominent hospital leader  
in Vancouver, requesting that he attend  
and give an address.

### RIDGEDALE

Green and white streamers, green  
and gold crepe paper hats, and novelties  
provided a pleasing "St. Patrick's Day"  
atmosphere at the dance given in  
Ridgedale hall last Friday. A vast  
amount of work had apparently been  
done by the ladies of the club in arranging  
the decorations, and fabricating  
events all over the district, the dance  
was well patronized. Miss Nelson substituted  
for Dr. Wood, who was sick, her piano  
leading the six-piece orchestra most effectively.

A number of young ladies of Ridgedale  
were entertained at the home of  
Mrs. Gallagher on Monday of last week.  
The afternoon was spent making St.  
Patrick hats for the dance. In the evening  
they were joined by the young men,  
and the evening enjoyed with music  
and dancing.

Mr. and Mrs. Sutherland have arrived  
from the prairies and will take  
over the Rude place at Matsqui.

Dr. Wood has entered the Shaughnessy  
Military Hospital to take treatment  
for stomach disorder.

### Clayburn Lad Wins Fraser Valley Boxing Championship At Chilliwack

John McBeth returned home from  
Chilliwack last Thursday night with  
two fine silver trophies as winner in  
the featherweight and lightweight classes  
for the Fraser Valley boxing championships.  
Mr. McBeth outfought W. Dartnell  
in the lightweight class, and won over  
B. Kennedy of Mission in the second contest.

Mrs. J. Downie has rented the S.  
Trettheway house on the Yale road  
just west of town and will operate it  
as an apartment and boarding residence.  
The house is modern, with 12  
spacious rooms.

Mrs. B. Fraser of Vancouver visited  
her sister, Mrs. H. McKinnon over the  
week-end.

### U. S. Telephone Exchange To Serve Sumas Reclaimed Area By Extension Of Existing System

A delegation of Sumas and Huntingdon  
business men went to Lynden last  
Monday evening to meet the board of  
directors of the Farmers' Mutual Telephone  
company with a view of interesting  
the board in an extension of the  
British Columbia Farmers line a distance  
of nine miles to the hop yards  
in the center of the Sumas Lake reclaimed  
area.

The B.C. Farmers phone company  
has been handicapped for funds to  
make necessary extensions of its line  
and as it has had for some years a

Two or three auto loads of dancers  
attended the Aldergrove Elks' dance  
given in Langley last Friday, and enjoyed  
a jolly program.

working agreement and connection  
with the Farmers' Mutual on this side  
of the line, the purpose of this meeting  
was to ask further assistance of  
the Whatcom company in financing  
the proposed extension....Sumas, of  
course, is interested to the extent of the  
developments immediately across the  
border, and is therefore working with  
our neighbors in furtherance of their  
plans for needed improvements.

## Abbotsford Berrymen Decide To Seek Application Of Marketing Act Here

Berry growers held a meeting in the  
Masonic hall on Friday last to consider  
the advisability of applying to the Lieutenant-Governor to extend the Marketing  
Act to apply on berry production in  
this district. After considerable discussion,  
the growers decided to prepare the  
petition, and give the Act a trial  
during the coming season.

A certain amount of dissent was voiced,  
but with the exception of one grower,  
who declined to vote, the decision  
was unanimous. J. H. Bury and A. H.  
Horn were deputed to carry the resolution  
to the meeting of delegates of the  
entire Valley, to be held in Mission today.

A number of proxies of growers who  
were not present at the meeting, were  
in possession of the chairman, N. Hill,  
completing the proportion of votes necessary  
to qualify for application of the  
Act in this area.

### Matsqui Auction Draws Big Crowd

One of the largest auction crowds  
ever assembled in the district attended  
the sale conducted by Auctioneer  
Myhre in Matsqui last week, when the  
effects of Mr. Rude and others were  
disposed of.

Among purchasers of cows were G.  
Kerr and L. Cornwall, each paying  
\$110 for their animal. O. Heywood  
bought a cow and horse, and P. Gaard  
two cows. J. Olsen paid \$187.50 for  
a general purpose horse, and S. Sutherland  
acquired a flock of 40 yearling  
poultry at 75¢ each. A Massey-Harris  
drill and other machinery was taken  
by Mr. Gaard.

SEALED TENDERS addressed to the  
undersigned, and endorsed "Tender for  
Assembly Wharf, Port Alberni, B.C." will  
be received until 12 o'clock noon,  
Wednesday, April 18th, 1928, for the  
construction of Assembly wharf, at  
Port Alberni, Comox-Alberni District,  
B. C.

Plans and forms of contract can be  
seen and specification and forms of  
tender obtained at this Department, at  
the office of the District Engineer,  
Post Office Building, Victoria, B. C.;  
at the Post Offices, Vancouver, B. C.,  
and Port Alberni, B. C., also at the  
Builders Exchanges, 2509 Prior St.,  
Victoria, B. C., and 615 West Hastings  
St., Vancouver, B. C.

Tenders will not be considered unless  
made on printed forms supplied by  
the Department and in accordance with  
conditions contained therein.

Each tender must be accompanied  
by an accepted cheque on a chartered  
bank, payable to the order of the Minister  
of Public Works, equal to 10 per  
cent of the amount of the tender. Bonds  
of the Dominion of Canada or bonds  
of the Canadian National Railway Company  
will also be accepted as security,  
or bonds and a cheque if required to  
make up an odd amount.

Note—Blue prints can be obtained at  
this Department by depositing an accepted  
cheque for the sum of \$25.00,  
payable to the order of the Minister  
of Public Works, which will be returned  
if the intending bidder submit a regular  
bid.

By order,  
S. E. O'BRIEN, Secretary  
Department of Public Works,  
Ottawa, March 14, 1928.

## A Forward Step

The development and growth of Canada politically, economically, in commerce and finance, in production from its natural resources of the field, the forest, the mine, and the waters of the Dominion has, during the first sixty years of Confederation, been most gratifying. This is now fairly generally recognized. It is also the general belief that Canada is just entering upon a still greater era of expansion and development in many directions leading to a greater growth and larger prosperity.

The question, however, which, to an increasing extent, is calling for serious consideration is: What policies should be adopted and steps taken to insure that this future development shall proceed along lines that will result in building up a strong nation, and in such a way that maximum benefits from such development shall accrue to the whole people of the Dominion?

During the pioneer stage in any country's development it is inevitable that its people devote their energies largely to the production of primary articles, largely raw materials. But with increase in population, the provision of adequate means of transportation, and the accumulation of wealth, a country should move forward in the work of not only producing such raw materials in increasing quantities but in utilizing them in the manufacture of finished articles.

It is important that crude methods in production of raw materials be discarded for those best calculated to give larger quantities, better qualities, and at lower costs; that all possible waste be eliminated; that as many by-products as possible be reclaimed, and that use be made of low-grade and off-grade materials. It is perhaps of even greater importance to ascertain the nature of pests and other agencies which now operate to destroy our raw materials at their source, and to discover effective means for their eradication.

The discovery of all these things can best be brought about through the painstaking effort of the expert in scientific research. Such work may require years of study, investigation and experiment. In many, perhaps most, cases it will call for laboratory and other expensive equipment. In the past Canadians have not fully appreciated the importance of such work, and as a consequence have not been prepared to provide the necessary public funds to carry it on. As a people we have been so busy attending to our own particular problems, and demanding immediate solutions of them, that we have been impatient of ideas based on long and expensive scientific research. As a result, Canada today lags behind other nations in this respect, nations which have not nearly the wealth of natural resources calling for development which Canada possesses.

It is, therefore, highly gratifying to learn of the action of the House of Commons in unanimously adopting a resolution favoring the establishment of a National Research Institute by the Dominion Government, and of announcement by the Government of its intention to proceed with the erection of the first wing of a National Research Institute building on a ten acre plot at the central experimental farm at Ottawa.

Last year, it is stated, Canada spent \$250,000 for research as compared with \$50,000,000 by the United States, and \$25,000,000 by Great Britain. This year the Government will, on the recommendation of the Research Council, increase the vote for research work to \$750,000, and the Minister estimated that three million dollars would be required during the next five or ten years to construct and develop laboratories.

In this way the splendid work initiated by many of our Canadian universities, assisted by private capital, will be supplemented, and the whole work of research in Canada co-ordinated and developed. When it is realized that Canada is estimated to be losing at least twenty million dollars a year through grain rust alone, the possibilities of gigantic gain through research work can be grasped. A few millions a year spent in research work may easily mean a gain of ten times as many millions through discoveries made.

### Preparing Reception

#### For British Party

Empire Parliamentary Association To Visit Canada This Summer

Details for the reception this summer of the Empire parliamentary association are now being completed. It is understood that a party of about 50 members of parliament from Great Britain will take part in the tour of Canada, accompanied by some members of the parliament of Canada.

The British party will arrive in Quebec on August 25. They will visit Montreal, Toronto, Niagara Falls and spend two days in Winnipeg about September 4 or 5. Saskatchewan, Edmonton, Jasper, Vancouver, and Victoria are included in the trip West. Coming East there will be visits to Lake Louise, Banff, and to the EP Ranch near High River, Calgary and Regina.

According to Pliny, Cato believed that husbands started kissing in order to determine whether their wives and daughters had been drinking wine.

### "A Babe in the House is a Well-spring of Pleasure."

St. Catharines, Ont.—"During motherhood I was all rundown, nervous and weak, when, upon advice, I began taking Dr. Pierce's Favorite Prescription. It strengthened me, quieted my nerves and I had no more trouble. I kept well and had a fine, big, healthy baby—he has scarcely had a day's sickness. The 'Favorite Prescription' was so helpful to me that I believe it is the only medicine for the expectant mother to take."—Mrs. Gordon Bouck, 33 Wiley St.

Go to the drug store at once and obtain this Prescription in tablets or liquid, or send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for a trial package of tablets.

W. N. U. 1721

### Discuss Coal Subsidy

Subsidy To Railways For Transporting Alberta Coal Should Come From Dominion Government

Any subsidy to the railways for transporting Alberta coal to Ontario should come from the Dominion Government and not from Ontario, said Premier G. H. Ferguson in the Ontario legislature, in reply to a question of J. G. Lethbridge, Progressive leader.

Mr. Lethbridge asked what the attitude of the government was in view of recent suggestions made in the press. Mr. Ferguson pointed out that the railways wanted \$9 a ton whereas the actual cost as determined by the railway board was \$7. The real cost, he thought, was nearer \$6.75. There was a suggestion, said the premier, that if the Dominion Government would contribute a subsidy of \$1 a ton, the province of Ontario and Quebec should join in providing another dollar.

### HOW DELICATE GIRLS ARE MADE STRONG

Rich, Red Blood Needed To Keep Up Their Vitality

It should be borne in mind that pale, bloodless girls need plenty of nourishment, plenty of sleep and regular out-of-doors exercise. But a lack of appetite and tired, aching limbs tend to hinder progress. To save the weak, thin-blooded sufferer, she must have new, rich blood, and nothing meets a case of this kind so well as Dr. Williams' Pink Pills. These pills not only enrich and increase the blood supply, they help the appetite and aid digestion, relieve the weary back and limbs, thus bringing new health and strength and transforming anemic girls and women into cheerful, happy people.

The value of Dr. Williams' Pink Pills in the case of anemic girls is proved by the case of Miss Lucy Stoddart, Margareville, N.S., who says: "From the age of 12 to 15, I was in an anemic condition. I was very thin and nervous, had no appetite and had no desire to take part in the doings of those of my age. My mother got tonic after tonic for me, but they did me very little good. Then Dr. Williams' Pink Pills were recommended and almost from the first they seemed to be just what was needed to restore my strength. After taking the pills for a time I felt an altogether different girl. I got up in the morning feeling bright and active, and ready for work or play. Since then I have always taken a couple of boxes of Dr. Williams' Pink Pills in the spring as a tonic and have thus kept in the best of condition."

Every weak girl should promptly follow the example of Miss Stoddart, feeling sure that the pills will renew her health. You can get the pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Book On Manitoba Place Names

National Geographic Board Has This Work In Hand

The National Geographic Board will commence immediately to gather information for a booklet on place names in Manitoba. A booklet covering Alberta is now on the press and will be issued in a few days.

R. Douglas, the secretary of the board, stated that the Manitoba booklet will cover the lakes, rivers, cities, towns and historic sites of the province, giving the derivation of each name. W. J. Healy, the provincial librarian, is the Manitoba representative on the board and will assist in the work, which, it is expected, will require about one year.

The most obstinate corns fail to resist Holloway's Corn Remover. Try it.

Polly: "Did you see the aurora borealis last night?"  
Dolly: "No, I haven't been to a show all week."

The boiling of water removes very few of its chemical impurities, but it does kill the germs.

### The "Flu" LEFT HER WITH A VERY WEAK HEART

Mrs. Beulah Demone, Pleasant River, N.S., writes:—"Having suffered with the 'flu' a few years ago, I was left with a very weak heart."

"I was unable to go about, and could not do my housework. 'I would get dizzy spells and would have to go and lie down. 'I could not sleep at night as the least little noise would wake me up. 'I tried different kinds of medicine, but they seemed to do me no good. 'A friend recommended

I have used five boxes and am much better; do not get those dizzy spells, and can do my own work as well as ever."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### Widen Income Tax Scope

Speculation Profits On Grain Or Stocks To Be Subject To Tax

Broadening the principle laid down in the case of Allan Morrison versus the Crown, in which the court held that income derived from speculation on the grain exchange was taxable under the Income Tax Act, the income tax department intends to levy tribute upon profits made from speculation, whether on grain or stocks.

This announcement was made by the department and it was further stated that the tax would apply upon profits made in the calendar year 1927. It is expected that some \$50,000,000 additional income will be brought under the tax annually, and since much of it runs to high amounts per individual, the increase in the receipts of the government may well approximate \$5,000,000 per annum.

Those who speculate only occasionally will not be subject to the levy, but all who make a business of it, notwithstanding the fact that they may be at work daily in other businesses, will be considered taxable.

### Prevent Level Crossing Accidents

New Legislation Introduced In Saskatchewan House With This Object In View

Complete accord by all parties in the Saskatchewan Legislature was expressed on the proposed amendments to the Vehicle Act which have to do with autoists bringing their cars to a complete stop at railway level crossings or where stop signals are erected, before attempting to make a crossing.

The amendment was introduced by Hon. S. J. Latta, provincial secretary, as an attempt to eliminate level crossing accidents.

The Saskatchewan gasoline tax bill, introduced by Hon. S. J. Latta, calls for a tax of three cents on each gallon of gasoline sold, and will come into force May 1.

### A River That Burns

Stream Of Water In France Was Ignited By Match

A burning river and a buried forest were the unexpected rewards of men digging for springs in the interest of the water supply of Coreno, France. Instead of a spring they discovered a stream of water which bubbled like champagne.

When a match was thrown into the water it caught fire and burned for several hours.

The source of the gas was found by sinking a shaft 100 feet where giant oaks and pines were discovered decomposed, remains of a forest supposed to have been buried hundreds of years ago by a landslide.

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

### Recipes For This Week

(By Betty Barclay)

#### LAMB MENAGERE (Thrifty Housewife's Lamb Ramekins)

1/2 cup sweetened condensed milk.  
2 sups cold lamb, minced.  
1 teaspoon salt (scant).  
1/4 teaspoon white pepper.  
2 tablespoons chopped green peppers.  
1 tablespoon chopped onions.  
2 tablespoons hot water.  
2 tablespoons bread crumbs.  
1 tablespoon butter.  
Mix sweetened condensed milk with water and stir into minced lamb. Add salt, pepper, chopped onion and green peppers. Put into buttered ramekins. Melt butter; mix with bread crumbs and sprinkle over meat. Bake in a moderate oven (350 degrees Fahrenheit) for about 20 minutes, or until well browned.

#### CUSTARD SOUFFLE

3 tablespoons butter.  
1/4 cup flour.  
1/4 cup sugar.  
1 cup scalded milk.  
4 eggs.  
1/2 teaspoon salt.  
Melt butter, add flour, and gradually hot milk. Bring to boiling point and pour on to yolks of eggs beaten until thick and lemon-colored, mixed with sugar and salt. Cool. Fold in whites of eggs beaten stiff. Turn into buttered dish, and bake from 30 to 35 minutes in slow oven. Take from oven and serve at once. Serve with hard sauce, whipped or plain cream.

Minard's Liniment for sick animals.

## CUTICURA Promotes Loveliness Of Skin And Hair

Daily use of the Soap, assisted by the Ointment when required, keeps the skin fresh and clear and the hair healthy and glossy. They are ideal for the toilet, as is also the smooth, cooling, fragrant Cuticura Talcum.

Sample Each Free by Mail. Address Canadian Depot: "Bathhouse, Ltd., Montreal." Price, Soap 25c. Ointment 50c and 60c. Talcum 50c. Cuticura Shaving Stick 25c.

## HERCULES

PERMANENT BUILDING PAPER

### What's between Indoors and Outdoors?

The world is divided into two parts, outdoors and indoors. Between the two lies a problem. The answer has a vital effect on those who are indoors.

If wind and dampness can be kept outdoors, naturally indoors will be comfortable and healthful to the occupants.

You can solve this problem with Hercules Permanent Building Paper. In three grades, x, xx, xxx—Hercules is tested and proven damp proof and wind proof. Test it yourself. A line will bring samples. Write us.

### Searching For Continent

Australian Explorer and Aviator Has Gone To Arctic

The urge that for centuries had sent men up and down the earth in search of new countries gave impetus to another such mission when Captain George Willings, Australian explorer, aviator, and Carl B. Eilsson, his soundproof pilot, sailed from Seattle recently for Seward, Alaska, from whence they will begin a search for an Arctic continent.

They will go from Seward to Fairbanks by rail. From Fairbanks they will attempt to fly to Point Barrow.

Stop the Cough.—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

Communication by telephone has been established between Scotland and Canada. On that line idle gossip will not often interfere with the transaction of business.

When asked if she was interested in a car with a worm drive she declared she never felt safe with her husband at the wheel.

The Leaning Tower of Pisa is 16 1/2 feet out of perpendicular.

### Three New Canadian Books

A SEARCH FOR AMERICA. F. P. Grove. \$3.00. The gripping story of an immigrant. ONLY THIS. James H. Pedley. \$2.00. The war book for every Canadian. THE SHADOW OF TRADITION. \$2.00. C. H. MacGillivray. A tale of Old Glenarry. Obtain locally or order direct from THE GRAPHIC PUBLISHERS, Ltd., OTTAWA

### U.S. Legation At Ottawa

Residence For Minister From United States To Be Erected

Hon. Frank B. Kellogg, United States Secretary of State, after a visit to Ottawa as a guest of the Canadian Government, announced in an interview that it was expected that the United States would erect a residence for the United States minister and an office building for the legation staff in the city section of Ottawa. Arrangements as to location would, he said, be in the hands of the United States Minister to Canada, the Hon. Wm. Phillips.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Exterminator to give relief. Its effects are sure and lasting.

Car Salesman—"And the price is within easy reach."  
Victim—"Show me where to reach and I'll grab it."

A cynic is a person who knows the price of everything and the value of nothing.

## ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

### Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

## Flying Comes Here To Stay And Conquest Of The Air Goes On Apace In Canada

Canadian fliers who may be anxious to attempt a transatlantic flight this summer will have much difficulty in securing permission from the federal government, because trans-oceanic hops are frowned upon in the Dominion on account of the aerial tragedies of 1927.

Legislation will be passed at the present session whereby licenses will have to be secured by pilots desiring to fly across the Atlantic. It will be extremely difficult to secure such a license.

Flying in the Dominion last year was more costly in dollars and in human life than ever before, no fewer than eleven pilots having been killed in flying accidents and yet no records were attempted or set by Canadians.

Flying has come to Canada to stay. It was born of the war when Col. William Avery Bishop, V.C., won every decoration possible for conspicuous gallantry and devotion to duty in shooting down seventy-two enemy planes.

In these days of peace the conquest of the air goes on apace in the Dominion. The young men who reaped the whirlwind in the war returned to Canada to earn their living as civilians. But the spirit of war work survived, and in a small but seasoned organization called the Royal Canadian Air Force the traditions of aerial navigation were carried on.

The young airmen, trained in war days, looked to the civil department of government for employment. They were needed and within two or three years of the close of the war many of them were in the Royal Canadian Air Force, detecting forest fires, locating smugglers on the boundaries, and mapping out by photography the vast area of the hinterlands.

Canada was quick to establish the necessary code of law for navigation of the air, and today the Dominion is safeguarded by a set of strict regulations governing the licensing of all mechanics, pilots, air harbors, international flying signals and the inspection of aircraft.

The most conspicuous work done during the recent crowded years of flying history has been the survey work in which Canada has led the world. Last year more than 400,000 square miles of Canadian territory were photographed and mapped with an accuracy which would have required years and millions of dollars if done in the old way.

Parliament acknowledged Canada's future in the air was assured by providing \$3,000,000 last year for air development. Cities are being encouraged to provide future air harbors, technical advisers from Great Britain have visited the Dominion to make recommendations for the future linking of the Empire by airways, and the postoffice department is taking the initial steps toward what will be an Atlantic-to-Pacific air route.

### Red Tape In France

A girl living in Epinal, France, has been refused a marriage license because she has never been officially born. She applied for a birth certificate, which is required before a marriage license can be issued, and the officials searched the records, but could find no trace of her birth having been entered. Her parents had apparently neglected to register her birth. She was informed that officially she was not born, and the wedding has had to be postponed.

Passenger: "Porter, is this a through train?"  
Porter: "Nawsah, she's just done commenced, sah!"

A hair from a man's head is slightly heavier than a woman's hair.

"Emil, can you hear the murmur of our souls?"  
"No. You are mistaken. It is my stomach. I have indigestion."—Flegende Blaetter, Munich.

W. N. U. 1721

### Fisheries Of Alberta

#### Smaller Catch Is Reported For 1927 Over Previous Year

The fisheries of Alberta were not so active last year as in 1926, when a catch of 7½ million pounds netted the fishermen \$749,000, an increase over 1925 of \$290,000. Estimates of the total 1927 catch are placed at about six million pounds, with prices running about the level of 1926. The Alberta fishing activity depends largely on the production of the Manitoba lakes. The chief markets for the fish are New York and Chicago, and the Manitoba fishing companies fill these needs. If the Manitoba catch falls off, greater activity is necessary in Alberta, but if the Manitoba fisheries are active, Alberta is left with a smaller demand to fill.

During the past year a whitefish hatchery was built on Lesser Slave Lake, which, with Lake Athabasca, are the chief sources of supply.

### Ship Carries Air Taxi

#### Passengers On West Indies Cruise May Take Side Trips In Plane

Passengers who sailed from New York on the North German-Lloyd liner Columbus for a cruise to the West Indies may, if they wish, take side trips by plane. When the vessel docked from Bremen, it carried between the funnels a huge silver and black Junkers hydroplane.

The pilot of the plane is Walter Hagen—not the golfer, but a German airman. On the metal sides of the air taxi is lettered its name, Globe Trotter. Hammond declared that fares for the air-route seers will be about \$1 a minute.

### Paris-Inspired

One is immediately intrigued by its exquisite femininity. This stunning Parisian model No. 1702, fashioned of Creme de Menthe chiffon, derived distinction from its detail in cut. The bodice fits sleekly over the hips, adding a loose flat bolero at back to vary its smartness, and silver metal shoulder straps extend around the deep open neckline at the back. The skirt is made in three tiers with the selvaage used for the edge of each tier, and loose hanging circular panels with potted edges furnish the new side fullness to flutter to dance tones. No. 1702 is in sizes 16 years, 36, 38, 40 and 42 inches bust. Size 36 requires 6½ yards of 36-inch or 5½ yards 40-inch material, and ¾ yard 1¼-inch lace banding. Price 25 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dresser. Price of the book 10 cents the copy.

### Co-Operation Between Railways

#### Two Transcontinental Systems Will Stand Together In Promoting Welfare Of Dominion

Whole-hearted co-operation between the Canadian Pacific Railway and the Canadian National Railways is assured in everything that will make the greatness of Canada, E. W. Beatty, president of the C.P.R., and Sir Henry Thornton, president of the C.N.R., declared at Engineer's Club, Montreal.

The occasion was a presentation dinner to the staffs of both roads, who contributed to the success of the second (triennial) Empire Mining and Metallurgical congress, held last year in Canada.

"Something has been said of the co-operation between the two railways during the Mining congress," said Mr. Beatty, "and it has been talked of as though it was something to marvel about. It is not. In anything that is of common interest to the country and the railways you will, I think, be able to find the Canadian National and the Canadian Pacific Railways joining in support of that effort, whatever it may be."

On the question of co-operation, Sir Henry Thornton had the following to say: "Let me say that we in Canada are too few in numbers to quarrel, and too poor in capital to fight each other. The progress of our country will be best assured by the co-operation of all institutions within our bounds and by the joining of each section of our country in promoting the welfare of the Dominion. We shall stand shoulder to shoulder with the Canadian Pacific Railway in the protection that is necessary to preserve the revenues of our great transportation systems."

### Hinders Trade With India

H. R. Poussette, Canadian trade commissioner at Calcutta, writes that one factor that militates against the expansion of Canadian exports to India is the reluctance of Canadian manufacturers to send representatives to visit the markets of India and Ceylon and the Middle East generally. Similar complaints have been made by other trade commissioners.

If Australia could be transplanted into the Atlantic Ocean, it would fill up all the space between the United States and Great Britain.

### For Better Understanding

#### Sir Hugh Denison Deprecates War Talk In Britain And U.S.

Sir Hugh Denison, former commissioner for Australia in the United States, pleading before the English Speaking Union for a better understanding between the United States and Great Britain, cautioned his hearers not to take Mayor Thompson of Chicago seriously.

Recalling the Chicago mayor's threats to burn school books and his other anti-British attitudes, Sir Hugh declared that Mr. Thompson no more represented the U.S. feeling than A. J. Cook, secretary of the Miners' Federation, represented England.

The former commissioner also made reference to Rear Admiral Plunkett's recent speech on the possibility of war between Great Britain and the U.S. and urged the people of both countries to weigh such matters in the proper balance.

He urged steps to bring about closer relations through visits of statesmen, mentioning particularly Senator Borah and industrialists of the two countries.

"They would find much in common," he said, and by exchanging visits would do a great deal in smoothing out the little misunderstandings which arise occasionally."

### Declares Columbus Was Buried In America

#### Ashes Sent To Mexico In 1542 Says Spaniard

Where is Christopher Columbus buried? That is the question.

Historians have been telling the world that his ashes are buried in Seville, Spain. But Senor M. A. Cocco, who attended the Pan-American road convention, takes issue by asserting the remains are buried in America—specially under the great cathedral in Santo Domingo City.

Senor Cocco says that the wife of Diego Columbus, son of the discoverer, petitioned Charles V. to remove the ashes of the discoverer from Valladolid, Spain to Santo Domingo. Permission was granted for the remains to be moved to Hispania America, according to his story, and in 1542 burial was affected under the altar of the cathedral in Santo Domingo City.

Many a man's financial goose has been cooked in a jack pot.

## Canadian Sheep Breeders View The Future With The Utmost Confidence

### Benefit Of Inoculation

#### Effect Of Inoculation Shown On the Yield Of Legume Crops

At several of the Experimental Farms in Canada tests have been made on the effect of inoculation on legume crop yield where legume bacteria were absent from the soil or present in insufficient numbers, and the results are summed up in a pamphlet on "Legume Inoculation" written by the Dominion Agricultural Bacteriologist. In some cases the increases in yield resulting from inoculation were comparatively slight, but in many instances they were strikingly large. At the Kapuskasing Experimental Station two years after seeding, the inoculated alfalfa seed produced 3 tons, 1,465 pounds of dry matter against 3 tons 967 pounds produced from untreated seed. Results at the Beaverlodge, Alberta, Station were much more striking. On areas clipped in the year of seeding on that station the aggregate crop of two years from inoculated red clover seed was 4,162 pounds per acre as compared with only 320 pounds from uninoculated seed. For alsike the comparison was 4,268 pounds with 640 pounds and for sweet clover 5,660 pounds with 1,520 pounds per acre. The pamphlet may be obtained from the Publications Branch, Department of Agriculture, Ottawa.

### A Valuable Fertilizer

#### The Relative Value Of Fresh and Rotted Manure

Weight for weight rotted manure is more valuable than fresh manure as it contains percentages of plant food and has these elements in a more available condition. However, according to a new bulletin on "Manures and Fertilizers" written by F. T. Shutt, Dominion Chemist, and L. E. Wright, the losses in rotting frequently outbalance the benefits. Generally speaking, the sooner the farmer gets his manure while still fresh into or onto the soil the better. Still there are times when the rotting of manure is an advantage. It is well suited for light and sandy soils as it tends to make them more compact and retentive of moisture. On clays and heavy loams fresh manure is best as it improves their physical condition by opening them to the air and making them more friable. Fresh manure is also preferable for crops which have a long season of growth. With crops having a short period of growth and where early marketing is a consideration rotted manure with its quickly available plant food is best. It should be remembered that when rotting manure in a large heap the mass should always be kept compact in order to reduce losses to a minimum. The bulletin may be obtained from the Publications Branch, Department of Agriculture, Ottawa.

### Flower Improves With Age

#### Carnation Exhibited At London Show Changes Color Instead Of Fading

A new carnation named Daphne which improves as it gets older was one of the exhibits at the Royal Horticultural Society show.

It is a medium-sized bloom, mauve in color, striped with heliotrope.

"As it becomes older," the grower said, "instead of fading, the tone changes to a delicate French grey, even more beautiful and artistic than its original coloring."

Another feature of the show was a little flower, Daphne Indica Rubra, which is said to be the sweetest smelling in the world.

### Cause For Worry

Mrs. Jones found Mrs. Smith, the aviator's wife, in tears. "Whatever is the matter?" she asked, anxiously.

"I'm worrying about Jim," said Mrs. Smith. "He's been trying all week to kill our cat, and as a last resource he took her up 2,000 feet in his plane. He said he would drop her over the side."

"Well, what is there to worry about?"

"Lots," exclaimed the frantic woman. "Jim isn't home yet, and the cat is."

Lady (interviewing prospective help): I may tell you that we are vegetarians.

Girl (anxious to be engaged): I've attended that church all my life, mum.

The movie "Annie Laurie" was filmed in England and Scotland.

"My Old Kentucky Home" was composed by Stephen C. Foster.

### Ten Thousand Snowshoers Meet

1.—Snowshoers in full costume. 2.—A little diversion—the bounce. 3.—Notre Dame Church at Montreal.

Around ten thousand snowshoers and their friends visited Montreal on the occasion of the 20th anniversary of the founding of the Canadian Snowshoers' Association, which was held in that city February 3-6.

The convention takes on an international character by the fact that the American Snowshoers' Association, with over 1,500 members in the state of New Hampshire and Massachusetts, also attended the convention. In addition there were representatives from the Manitoba Snowshoers' Association and a large attendance from the St. Henri Canadian Club, which was celebrating at the same time its fiftieth anniversary, while unattached snowshoers from all parts of Canada and

the United States went to Montreal for the function.

The convention was held under the auspices of the United Snowshoers' Clubs of Montreal and was featured by a carnival, during which the grand snowshoe championship of the world was decided. His Worship Mayor Martin was the patron of the convention, and in its celebration a banquet was given at the City Hall, at which the snowshoers were the guests of the city, on Sunday evening, February 5.

A number of snowshoers travelled distances up to 300 miles on foot to Montreal, but the majority took advantage of the special facilities offered in excursions at reduced rates by the Canadian Pacific Railway.

With 120,000 more sheep in Canada than a year ago, George Gordon, of Oak Lake, Manitoba, president of the Canadian Sheep Breeders' Association, at the annual meeting in Toronto, viewed the future with every confidence for a greater increase in sheep population during the year. He spoke particularly of the conditions in Manitoba, where 40 years of wheat raising had resulted in very weedy land, which required the use of sheep to clean it up. For this reason, 120,000 sheep more than the present number could be successfully employed in Manitoba at this work. A committee had been appointed to interview the board of trade and the land and mortgage companies in Winnipeg with a view to soliciting their support to encourage the loaning of sheep on their farms to help clean the land. He outlined the good results of the four sheep sales in Manitoba. The districts in which they were held at one time supplied the worst grades of sheep to be found in the country. Now conditions were entirely changed and over one thousand sheep were to be seen offered for sale in one place. The highest price paid per pound for a lamb was 80 cents, and a Manitoba bred ram sold for \$200. The prize pen of 15 lambs sold for 39½ cents a pound and 200 grade ewes for \$13.50 each.

Mr. Gordon urged every sheep breeder to ship his wool to the Canadian Co-operative. It was very encouraging to hear the big sheep men from the ranches of Southern Alberta say that the rancher who had shipped his wool every year to this organization had done much better than the man who shipped one year and sold to the private trade the next. Sheep men should not hesitate to patronize their own organization when they know they do so much to find markets for our wool. He said that the last shipment of 250,000 pounds of wool to England meant a great deal in opening up new markets and advertising Canadian wool. Last season approximately 3,000,000 pounds of wool, worth in the neighborhood of one million dollars, was handled, and the prospects for 1928 prices were good.

Cecil Stobbs, of McCreary, stated that the Dominion Government has removed some of the restrictions for importation of sheep from the United States owing to the prevalence of the foot and mouth disease in England.

Reports submitted by the representatives from the several provinces were all of a gratifying character, particularly that from the Maritime, where a total of 29,292 lambs sold for a total of \$195,164. Pure bred ram lambs sold for \$20 to \$25; shearing pure bred for \$25 to \$35; ewes, \$20 to \$30 and grades from \$10 up.

The receipts for the year were \$21,270 and expenditure of \$15,100. There is a balance of \$6,176. The record of registration shows 14,269 sheep of which 5,377 are Shropshires, with 3,743 Oxford Downs as the next in popularity. The total membership is 1,174 of whom 499 are in Ontario, 335 in Quebec, 61 in Manitoba, 53 in Saskatchewan, 104 in Alberta, and 11 in the United States. Among the total importations during the year of 328, there were 135 Shropshires, 60 Suffolk, 10 South Downs, 59 Romney, 2 Cheviots, 13 Black Face, 8 Leicester, 10 Rambouillet, 14 Merion.

The following officers were elected: President, Victor Sylvester, Ste. Hyacinthe, Quebec; vice-president, John Wilson, Innisfail, Alberta; secretary-treasurer, R. W. Wade.

It was decided to hold the next meeting in Quebec.

Palestine produced less than 800 tons of wool in the past year, and all of this is to be used in the making of carpets.

"Now, Max, give the little girl a kiss. Don't be shy. Go on!"

"Leave him alone—he will do it spontaneously later!"—Meggendorfer Blaetter, Munich.

### British Settlers for Canada

A good example of the type of British farm settlers now arriving in Canada can be seen from the above photo taken on the concourse of the Windsor street station, at Montreal. This group, which forms part of the 400 settlers who arrived recently on the S.S. Montclair, are the first contingent of the Canadian Pacific Railway Colonization Department. They possess a thorough farming training, and before being well equipped for the duties they are to take up in Canada, where farms have already been arranged for them by the government.

### Summer Bus Schedule Starts April 1

The British Columbia Rapid Transit Company will put their new summer coach schedule into effect on Sunday, April 1. On and after that date, the big blue coaches will operate between Vancouver, New Westminster, Chilliwack and way points on a daily three trip schedule. Coach service between Chilliwack and Hope has also been resumed on weekdays only. Connections are made at Abbotsford for Mission by the Vancouver-Chilliwack coaches.

### Upper Sumas Institute Entertains

Seventy guests were present at an enjoyable St. Patrick's supper given by members of Upper Sumas W. I. in the hall last Monday. Table decorations harmonized the Institute colors and shamrocks, fragrant spring flowers taking their part in providing a pleasing setting, the old hall being effectively transformed. An appetizing chicken supper was served. Mrs. W. Y. Porter presided over the event, and a pleasing program was rendered by the following: Miss Cleo Porter, piano solos; Mrs. P. Starr, Hawaiian guitar; Mrs. J. Hunter, violin; Mrs. W. H. Fadden, Miss Jean Fraser, readings. A hearty vote of thanks was expressed by Mr. F. Nelles, and the evening was happily whiled away with dancing.

### Given Free Use Of Lake Land

After two years' occupation of a piece of lake-bottom land situated near the south canal, close to the provincial highway, J. Agar is quitting, and seeks a small farm near Abbotsford. With his son-in-law, W. Turner and his son, J. Agar said he commenced cultivation on three of the government 40-acre plots, erecting buildings thereon to a value of about \$1,700. His first year's occupation by given free by the government, he said, and he was to pay the taxes, some \$393, for his second year's use of the land. He raised potatoes and other crops, and admits the land is exceptionally fertile. But he thinks the lake land is too high-priced, and is abandoning his improvements, and selling off some of his effects in preparation to leaving the reclaimed land. His son-in-law intends to remain.

### Clayburn Loses In Cup Game

Clayburn soccer team lost last Saturday's game to Langley, and with it their chance for the Royal Standard Cup. The score was 5 goals to 3, the game being played at Langley. The game played at Bradner between the team there and Kilgord resulted in a score of 4-1 favoring Bradner.

A meeting of Poplar Boys' Club is called for Thursday.

L. Kettle has completed erection of chicken and brooder houses for Mr. Foy.

Mr. J. W. Winson gave an interesting address on "Wild Flowers for the Garden" at a meeting of Mt. Lehman W. I. held last week.

### Canadian Legion Entertains

Members of the local branch of the Canadian Legion entertained at a very enjoyable social held in St. Matthew's hall last Thursday, singing and dancing being part of the happy program. Colonel Foster arrived from Vancouver to give an address, but was immediately recalled to the city by the sudden illness of one of his children. Dance music was played by Mrs. F. Thompson and Mr. Gladwin.

Two Hungarian families are busy erecting their residences upon plots of government land near the Vedder sub-station. They intend to plant tobacco. Their holdings are part of the 2,000-acre area being marketed by the Dyking Commissioners, and adjoins the new townsite.

A Pontiac car has been purchased by H. J. Hill-Tout.

A daffodil tea is being held at the home of Mrs. Duark on Saturday afternoon by members of Sunya Mission Circle.

### Wanted In An Emergency

When your car is disabled in an accident, or is out of commission for any reason, you call the local garageman to your assistance.

And he comes to your aid immediately, day or night, no matter what the weather.

He maintains wrecking equipment, a modern garage, and experienced staff with all expensive overhead costs—to give you this assistance when you need it—without delay.

Remember this when purchasing your tires, batteries, accessories, and giving that repair job.

## Now is the time to be thinking of Spraying Equipment Gardening Tools

QUALITY FIRST should always be the motto in selection of building hardware, because the difference in cost over cheap goods is so small that it is economy to specify the best—make your buildings permanent.

"How do you afford an electric range? Isn't it terribly expensive to run?"

"Why my dear, you are amazed! My husband just cut out one cigar a day and that more than pays the bills."
